

The image shows a dark grey composite door with a silver handle and a glass insert on the right side. The door has a textured, wood-grain-like appearance. The background is a light grey wall with a white door frame. The text "Bevelpane" is written in a blue, cursive font at the top, and "Composite Door Collection" is written in a white, cursive font on a dark blue banner below it. At the bottom, the text "THE DOOR WITH THE SOLID CORE" is written in white, bold, capital letters.

Bevelpane

Composite Door Collection

THE DOOR
WITH THE SOLID CORE

GRP V Solid Core

GRP V SOLID CORE

GRP

A typical foam filled GRP construction has only a small section of the door which is actually solid. The door is made up from two GRP skins bonded to a solid frame which is then filled with high density foam. The Gel coated GRP skins which are bonded to the frame are vulnerable to scratching.

SOLID CORE

The SOLID CORE door is made from sixteen layers of laminated timber. This ensures the grain is not running in one direction. The grain can be the weak point of timber and can lead to warping or splitting. By using sixteen layers of lamination the grain is running in multiple directions ensuring the core has increased strength and rigidity. Bonded to this are two robust coloured PVCu skins that offer a realistic wood grain effect or smooth finish in a range of colours.

The door comes complete with a Sculptured frame (Chamfered is available on request) in a choice of twenty two coloured foils as well as plain white or cream. There is also the options of a 57mm low PVCu threshold instead of the normal 77mm as well as a 24mm aluminium which can also have wheelchair ramps fitted.

Timber is naturally renewable and our Timber is purchased from sustainable managed forests and can be recycled at the end of its useful life and not destined for land fill.

Ultion stays locked

When attacked Ultion enters Lockdown mode activating a lock hidden deep inside its core. This core is behind 20 anti-drill rods and is made with Molybdenum, which is 25% denser than iron. The 11 pin design delivers 294,970 key combinations.

If a burglar snaps
Ultion and breaks in

£1000
GUARANTEE

If an intruder burgles your home by snapping Ultion, Brisant-Secure will pay you £1000.

Fullex Crimebeater (Our Standard Lock)

This Secured by Design, PAS23/24 door lock has 2 outer Hooks with a centre Hook and latch. Complete with fully adjustable keeps and an integral door latch snib.

Suitable for Lever/Lever and Lever/Pad operations. 960 spindle height from bottom of slab.

Yale Lockmaster

This lock incorporates 2 Hooks with Anti Lift Bolts with a centre latch and deadbolt. Secured By Design accredited and tested to PAS23/24.

Suitable for Lever/Lever and Lever/Pad operations. Includes Integral door latch snib. 960 spindle height from bottom of slab.

Ingenious Duplex

Lock comprises of 4 Hooks with centre hook latch and latch with integral door latch snib. The gearbox has unique "slider" technology for a long lasting, smooth operation. Suitable for Lever/Lever and Lever/Pad operations.

Tested to PAS23/24 and Secured By Design registered. 960 spindle height from bottom of slab.

Avocet Affinity

With a smooth and robust operation this lock has 4 opposing Hooks with centre Latch and Deadbolt. Tested to PAS23/24 and Secured By Design Accredited.

Includes integral door latch snib. Suitable for Lever/Lever and Lever/Pad operations. 960 spindle height from bottom of slab.

Ingenious Professional

Lock comprises of 2 hooks with centre hook and latch with integral door latch snib. The gearbox has unique "slider" technology for a long lasting, smooth operation. Suitable for Lever/Lever and Lever/Pad operations.

Tested to PAS23/24 and Secured By Design registered. 960 spindle height from bottom of slab.

Winkhaus Heritage

This is a Slam Shut Lock.

The aesthetics of a traditional rim latch, but incorporating the latest high security multipoint lock which activates automatically once the door is shut. Comprises of 2 antipush back Hooks with centre latch and deadbolt.

The cylinder measures is approx. 590mm from the top of the slab.

Yale Conexis

This is a Smart Lock which can be used with most 92mm centred multi point door locks. Say goodbye to keys with the Conexis. You can send mobile keys to family and friends to be able to access a home for a few hours or weeks.

Configure, control and unlock your Smart Door Lock from your smartphone via the secure Bluetooth app alternatively use a key card or key tag to open your door.

Era Surefire

This is a slam shut lock.

Simply shutting the door engages a trigger and automatically fires all the locking points. Comprises of 2 twin tapered anti-jimmy hooks with anti-saw protection for lasting security and performance.

Clever latch design ensures all elements are aligned before the locking points are thrown to prevent misalignment.

960 Spindle height from bottom of slab.

GU Security Automatic

This is a Slam Shut Lock. The spindle is situated at 960 from the bottom of the slab giving you the extra choice of a standard positioned handle using a slam lock. Fully adjustable composite keeps with edge protection.

With 3 deadbolts and centre latch this is a PAS23/24 tested lock and Secured By Design registered. This is used on our FD30 doors in conjunction with a fire testing certificate.
